And the

MORRISTOWN, TENN., WEDNESDAY, SEPTEMBER 5, 1877.

The Business Outlook Continues very promising. Our exchanges come to us every day with more and more encouraging accounts of preparations based upon the crops already secured and those to be. The Chicago Tribune, reviewing the wheat prospect, states that the four States of Kansas, Iowa, Wisconsin and Minnesota aggregate 117,000,-000 bushels this year, against 61,-000,000 in 1876, and 93,000,000 in 1875. "These figures, showing that Their strength ought to secure the the four States above mentioned will have, say 56,000,000 bushels more to sell than they had last year, may be relied upon as being as near correct as the very best information can make them. They are made mainly from the reports and estimates of the National agricultural bureau." The crop of California will be 12,000,000 bushels short, but that of Michigan, Kentucky, Indiana, Ohio and Tennessee is estimated to exceed by 35,000,000 or 40,000,-000 bushels the crop of last year, giving us a clear excess over last year west of the Alleghenies of 80,-

000,000 bushels. This surplus, at the advanced prices, will yield over \$100,000,000 in eastern ports in excess of receipts for wheat last year, and will net the farmers a clear increase of fifty million dollars in profits. "The amount of commerce," says the Baltimore Bulletin, "which this increase in crops should set free and the degree of stimulus it will afford to industry are not to be lightly calculated. The tangible increase devotion and unprecedented cross- an increase of products promises, in affording positious from whence bearing our people, but more especi- much more than any stock move to flank the central Shipka ridge. ally the christian ladies, labor and ments could do, that revival of trade It is possible also for the troops to suffer for him who died that we for which we are all hoping so fer- descend from them, struggle through him as O. FRIDAY'S FIGHT.

Full Particulars of the Great Engagement at Shipka

ly lavored .ess may be look London, August 27 .- A corres pondent, an eye witness of Friday's

battle in Shipka Pass telegraghs: Saturday, riding backward from Shipka through the night, I passed masses of reinforcements of artillery and infantry hurrying forward safety of all important positions. The same correspondent telegraphs from Bucharest Sunday Information follows me that fighting at the Pass was still raging, having been again renewed to-day, but Radetzky continues to hold his own. It is now a question of endurance, but I adhere to my impression that Shipka is safe, and unless Sulieman Pasha can run a column through another pass he will wreck his army by thus dashing it continually against Shipka. This correspondent explains that Shipka Pass consists merely of a section of the Balkans lower than the surrounding heights. There is no properly scaled but merely a track over this lower section ridge, which is extremly broken. The highest point of the road is flanked on either side by a spur commanding it also. A ridge behind the first of these two spurs can rake the road leading to the Russian position. These spurs break off abruptly and precipitously, affording no access to the valleys. Their sole use to the Turks, therefore, was O. stood for Oliver I believe. I intervening glene, and climbing the please him mightly. Occasionally says O.
